If It's a Man's

World You Can't

Prove It

This is a column for men—but I can't help it if the women read it, too. However, that won't make any difference, for this is a gripe about American buying habits, and one newspaper item will bounce off that target as though it were armor-plate.

A gentleman of 82 wrote William Feather, who edits the Imperial Type Metal magazine, that while the newspapers give a lot of space to the design of women's clothing they seldom say anything about what the men have to wear. Continues Mr. Feather:

"This reader, a doctor of medicine, wears the tail of the shirt restored to a decent length, as does every other man. He wants the collar put back on night shirts, for protection in a cold bedroom.

The back of drawers and trousers should be built up to afford protection to the small of the back, especially for men of outdoor occupation subject to lumbago.

"The suspender buttons on the back of trousers should always be close outside, to reduce pressure on the spine.

"The legs of pajamas should be buttoned at the ankles to keep them from slithering up on cold nights.

"All of these suggestions are hard enough for men to accept more to elderly than to young men.

"It is a fact, however, that in England, which is a man's world, vastly more attention is given to these details in the United States. Men in London have ideas and get what they want. In this country, Los Angeles seems to be doing a job for the men in the design of shirts and lounging wear.

"Improvements in masculine wear are long overdue, but so long as women do the buying for men, as is the custom here, not much gain can be expected.

"What is the public? It's a revolutionary thought but expires with a sigh.

Don't Count Opinion Polls Out of Season

By JAMES THRASHER

Opinion polls have been reaping a post-election harvest of scorn and ridicule for pinning the blue ribbon on the wrong entry.

But we think the opinion surveys deserve a calmer, more fair appraisal than they have been getting before the public decides to consign Gallup, Roper and Crossley to the limbo of Funk and Wagnalls.

Several leading politicians—all Democrats—oddly enough—have complained of a lack of fairness in the election polls. One of them said something about the opinion samplers hitting a "new low" in deservability.

But deliberate deception would have been silly. After all the poll-takers are in business the year round. All they have to sell is accuracy. Besides, it is pretty clear that the Republicans and not the Democrats were the ones who suffered from the polls' wrong conclusions.

Maybe there was carelessness or lack of thoroughness in taking the 1946 political polls. Maybe emotion or bias crept in somewhere. We don't know. Something was wrong. But that doesn't mean that people must cease believing in opinion surveys.

Opinion sampling is a science—maybe a developing and still unexact science, but a science nevertheless. Its techniques are the result of sound reasoning, trial, error and correction. A sampling, especially taken in a non-partisan scale model or pilot plant of a full-size industrial operation.

Opinion surveys are not only highly valuable in manufacturing, marketing and other lines of business. They are important, for instance in the conduct of our democratic government. Stuart Chase in his new book, "The Proper Study of Mankind," recalls that, in 1941, a congressional mail was sent to 500,000 households asking for their views on the draft law. But the polls showed a majority of all Americans in favor of the draft. And the draft bill went by only a single vote.

The famous Literary Digest postcard poll of 1936 was not so accurate. Chase explains what happened: "The Digest based its conclusions on a sample which was 'biased' statistically, that is, it did not represent the people, would actually go to the polls. The best cards came from telephone book names in considerable part, which gave an upper bracket bias. Poor people have votes but not always telephones.

The Digest also depended on people who had the clerical habit strongly enough to mail a postcard. So the Digest accumulated a second bias... toward the more educated, conservative and prosperous.

Chase explains why the Digest traditionally skewed in the direction of the Republican Party. Thus the Digest easily won the election for London.

Military Budget Hike to Mean Additional Tax

New York, Dec. 4 —(AP)—Secretary of Commerce Charles Sawyer says that if the federal military budget is increased next year, new economic controls will "almost certainly" be necessary to check inflation.

But American business has "nothing to fear" from an anti-inflation program, he told the closing session of the 53rd annual congress of the National Association of Manufacturers last night.

Sawyer's reassurance apparently was aimed at those businessmen who felt that President Truman's reelection would be a signal for renewed drive for legislation that businessmen have opposed.

High on the list of business fears have been the threat of more taxes including the excess profits and restoration of price controls.

In an address which he said earlier was approved by President Truman, Sawyer asserted that "avoiding controls will certainly require teamwork and rigid restraint on the part of those who are interested with our military effort."

An expansion in the current military program, he said, "would almost certainly call for economic controls of various kinds."

In Washington, the armed forces have sought military appropriations in the next fiscal year ranging up to \$23,000,000,000.

Mr. Truman has called for a \$15,000,000,000 lid on the military budget.

The Gibson home was beautifully decorated with red Nandina berries, greenery and green candles.

The meeting was opened with prayer by Mrs. J. C. Carlton, Mrs. J. L. Rogers, president, presided. Roll call was answered by each member giving a Christmas quotation. Mrs. W. J. Bourne gave the treasurer's report. The club voted to meet with the other civic clubs to decorate the city's Christmas tree on Tuesday. Plans were made for the club's 10th Anniversary party, next year. Each member brought packages of nuts, candy and fruit to be distributed to the need families this Christmas.
Mrs. A. G. Rives gave a beautiful Christmas story entitled "Ambergris." In the flower contest, prizes were awarded to Mrs. F. C. Crow, Mrs. J. L. Rogers and Mrs. J. E. Cooper.

Following the program, gifts were exchanged from a brilliantly lighted tree. Readings of Christmas carols were heard during the social hour.

The guests were invited into the dining room to a beautiful decorated table covered with a white imported linen cloth and centered with an epergne holding red berries, greenery, and lighted tapers. Mrs. Dorsey McRae and Mrs. J. L. Rogers presided. Coffee and a delicious plate which carried out the Christmas motif was served to 15 members.

The members of the club presented Mrs. Rogers, the club president, with a lovely gift.

Quentin Haden of Missouri Is New KXAR Announcer

Quentin Haden of Ava, Mo., this week joined KXAR, 1490, Hope, as a staff announcer. Station Manager L. B. Tuley said today.

Mr. Haden is a graduate of Southwestern Missouri State College, Springfield, Mo., with a B.S. degree, and of the University of Missouri, with a law degree. He was previously with Station KFTU, Columbia, Mo. He is unmarried.

Tennessee Group Seek Legalized Horse Racing

Memphis, Tenn., Dec. 3 — (AP) — Arkansas horse breeder says a group of middle Tennesseeans will make a move to legalize horse racing in Tennessee.

Robert Barlow, of Memphis and Pargoud, Ark., said he is not in a position to identify the backers, but added that the necessary legislation will be presented at the next general assembly.

Barlow made the statement yesterday as he was discussing an application he was pending before the Arkansas Racing commission for a horse racing franchise near West Memphis, Ark., just across the Mississippi river from here.

He told newsmen his application was still pending, but said he had no information as to when the commission would act — or if it would act before the new state administration takes over.

And he said he did not know what the attitude of the new administration would be toward the proposed track.

When first proposed, several months ago, the track drew strong opposition from church groups in Memphis and in Crittenden county, Ark., where the track would be located.

It also drew fire from E. H. Crump and his Democratic organization. The issue caused strained political relations between the Memphis group and Gov. Ben Laney of Arkansas. Laney said Memphis officials were trying to meddle in Arkansas affairs.

But they were the same two, in the same hotel room. The same two people, the same two run-aways.

This, he realized, watching her broadly, was what their life was going to be like from now on. Another hotel room, and then another, and still another. But all ways the same. Another town and then another, and still another. Onward, and onward, and onward to nowhere. Until some day they would come to their last town. And then—

show that the operation of a survey is far from foolproof. The pollsters are now checking back on themselves to see where they made their errors. Those errors cost them a lot of prestige. They probably also did a lot to swing the elections. Maybe it was an expensive lesson for Messrs. Roper, Crossley and Gallup, but undoubtedly they will profit by it.

Meanwhile we think the public might be reminded twice before branding the whole election of poll-taking as crooked or stupid or pointless and refusing to put any faith in it ever again.

Ferguson to Be Ousted as Investigator

Washington, Dec. 3—(AP)—Senator Ferguson (R-Mo.) will quit being a senate investigator when Democrats take control of the new congress in January.

Ferguson has spearheaded most of the headline-making inquiries during the two years the senate has been under Republican control, as chairman of the investigating subcommittee of the expenditures committee. These included inquiries into grain speculation by government officials, the war time contracts awarded Howard Hughes and the activities of Maj. Bennett E. Meyers, air force procurement officer.

The bushy-haired Michigan senator, re-elected last month, told a reporter he must give up this post in order to stay on the judiciary and appropriations committees, which he termed "more important."

As a member of the minority party, Ferguson can serve as only two committees. As a member of the majority party during the 80th congress he was eligible for three.

Senator McClellan (D-Ark) is scheduled to succeed Senator Aiken (R-Vt) as chairman of the executive expenditures committee. He said that either Senator Hoyer (D-NC) or Senator O'Connor (D-Md) probably will succeed Ferguson as chairman of the investigating subcommittee.

Six Children Die When Fire Destroys Home

Oshkosh, Wis., Dec. 3 — (AP) — Six small children were killed when a fire destroyed their home last night.

The fire took the home of Mr. and Mrs. Arnold Carpenter shortly before midnight. Police said Carpenter told them an oil heater ignited their home and was prevented by flames from reaching the bedroom where the children were sleeping. Mrs. Carpenter was away at the time on her night job at a mail order firm.

The dead were tiny Rose Mary, 7; Charlotte, 5; Russell, 4; Kenneth, 3; Barbara, 2, and Sandra, 18 months. They were burned and suffocated, police said.

Carpenter was treated by a physician for burns on hands and face and Mrs. Carpenter was taken to a hospital with shock after she was informed of the tragedy.

The only entrance to the wooden frame house was through the front porch, police said. Once the outside door leading to the bedroom was locked for the winter.

All-White Jury Convicts Man for Rape of Negro

Montgomery, Ala., Dec. 3 — (AP) — An all-white jury today convicted a man for raping a young Negro woman. The jury answered a prosecutor's plea that it prove a Negro "can get justice" in an Alabama court.

The jurors, in short order, found that Howard, Jr., operator of a garage and a rooming house, guilty and sent him off to prison for 45 years.

They wanted to go even further — fix it so Howard could not get a woman on parole. But Circuit Judge Oakley Melton told them not to "worry about" that.
